### EXPERIENCE

---

<b>Suspension Design Engineer</b> <i>SAE BAJA College Team</i>	Jan 2021 – April 2022 <i>IITDM Kancheepuram, TN</i>
---	--

- Led the team in designing of suspension system for our BAJA Baggi.
- Worked on manufacturing and assembly of BAJA Baggi.
- Handled the documentation for various events of the competition.

### PROJECTS

---

- Full Stack E-Commerce Website** | *ReactJs, NodeJs, MongoDB, ExpressJs, GitHub, Bootstrap, antd*
- Developed the MERN Stack (Full Stack) web application having all features of e-commerce app as login/logout, add to cart, payment to order.
  - Implemented features as filter (using this we can filter and choose products having specific features), and admin features as creating category, product.
  - Deployed on GitHub and cyclic.
- Myntra Website Clone** | *HTML, CSS, JavaScript, VS Code, GitHub*
- Developed the Frontend part of a web application (clone of Myntra Website) using with HTML, CSS and JavaScript.
  - Implemented my skills and knowledge of Web Development to clone the Myntra Website.
  - Deployed on GitHub.
- Contact List** | *ReactJs, NodeJs, MongoDB, ExpressJs, GitHub*
- Developed the website to add your contact details. Built signup/login method to start using.
  - Implemented my skills to make this web application having similar feature of notes. In this, we can add notes/details.
  - Signup is required for new users. Old users can login to add new details to contact details.
- Text Utility (Case Converter)** | *ReactJs, NodeJs, ExpressJs, GitHub*
- Developed the website where case of texts can be changed to all uppercase or all lowercase. Also, removes extra spaces, counts number of words and copy texts.
  - Built dark mode to change according to user preference. It shows alerts on various options as converted to uppercase, lowercase, or switched to dark/light mode.

### EXTRA-CURRICULAR SKILLS

---

**Sports:** Cricket, Volleyball, Badminton  
**Volunteer:** NCC, Publicity Volunteer (Technical Fest)
