Projects

gChat App

Chennai, India

A chat room application

march 2023

- Developed a real-time chat room application for group messaging using Node.js and socket.io
- Users can enter the chat room by providing their name and immediately begin sending and receiving messages to other users in the room
- The user is also acknowledged about the joining and leaving of other users
- Github Link: <https://github.com/abhi2k02/gChat-app>

User Management System

Chennai, India

A CRUD application

April 2023

- Developed a user-friendly CRUD application for managing users using Node.js, Express, and MongoDB.
- The application serves as a GUI for the MongoDB database of users.
- Users can be added, updated, and deleted with ease, and each user has an activity status within the application.
- Github Link: <https://github.com/abhi2k02/user-management-system>
