Languages : C/C++, HTML/CSS, JavaScript, Python, MongoDB, SQL

Technologies/Frameworks/Libraries : ReactJs, Redux, NodeJs, NextJs, Tailwind css, OpenGL, REST API

PROJECTS

Chit Fund Fullstack Website | *React Js, Mongo DB, Express, Node Js, Next Js*, REST API | Apr 2022 - Jun 2022
- Goal of the website is to streamline and automate the management of chit funds.
- Built a multi-functional Fullstack website of front-end using reactjs, tailwind css frameworks and back-end using MongoDB API, and sever-side rendering using Nextjs and bug-free code.
- Manages over 200 customer accounts and to keep track of their customers' payments and balances, and maintains accurate records of their transactions. This website gives the owner an output PDF which contains their traditional way of making chits to give to their customers.

WHAKAPAPA NGO Website | *ReactJs and NextJs*
- Developed and coded a static website made with nextjs framework and tailwind css framework, compatible with all screens sizes.
- *whakapapa.in* and *gsboxingclub.com*

Netflix Clone | *ReactJs, MongoDB and NextJs* | July 2022
- User interactive website which shows movies from TMDB api and an authorised user can add in watchlist, edit or delete it using MongoDB and NextJs-MongoDB API for back-end, ReactJs and Tailwind CSS for front-end and NextJs as production framework.

RESPONSIBILITIES

- Coordinated with faculties to organize and lead class meetings with 60 students, and had a chance to learn time management by balancing academic workload and responsibilities as a class representative.
- Led a team of 30 members responsible for crowd management for our institute's 10th convocation ceremony. coordinated with administrators, parents, and chief guest, ensured optimized crowd flow and received positive feedback from attendees and management.
